

those already determined in the State of Nebraska to be at least adequate and certainly not restricted. I am also concerned with Senator Abboud and agree with him regarding the cost. However, I think it is important for the older people in this state to have some guarantee that the prescriptions manufactured in any state are, in fact, put together and manufactured by registered pharmacists, for example, who understand the contents of this particular kind of a pill, or this particular kind of a capsule. Unfortunately, in some states they have technicians, actually it is just minimum labor help in some cases, that put these kinds of prescription drugs together. I would think that this kind of a \$50 fee would guarantee the health and welfare of especially our older citizens who deserve to know, by this legislation, by this amendment and, therefore, this bill, that what they buy, in fact, as the old melodrama line goes, what they buy is, in fact, what they get. So I think it is important and it is a good consumer piece of legislation. Hopefully, Senator Abboud, that may answer your legitimate concerns regarding the bill in its original form. I would, therefore, ask for your approval of this amendment to the bill.

SENATOR GOLL: The motion is to return LB 578 to Select File for a specific amendment. All in favor say aye, opposed nay. Record the vote, Mr. Clerk.

CLERK: 35 ayes, 1 nay, Mr. President, on the motion to return.
